This one-day professional development
will focus on providing updates for
participants about the changes in
syllabus and delivery of content.
Industry representatives will present
sessions with the aim to provide
participants the chance to engage in
authentic, contextual learning
experiences to develop engaging and
meaningful teaching strategies for the
21st century classroom.

8:45am - Registration

9:00am - Conference commences

3:15pm - Conference concludes

DESIGN CONFERENCE DAY 1

SPEAKERS

9:00AM MARK TYLER

NESA, Inspector Technology Education, Curriculum Standards

Will provide a NESA curriculum update of 'Technology' and feedback on developments related to the syllabus. Will also include Textiles & Design exam updates and assessment changes, as well as a Q & A session.

9:45AM JACQUI FINK - EXTREME KNITTER EXTRAORDINARE

Little Dandelion

Known as an 'Extreme Knitter' Jacqui Fink will share her story of moving from a career in law to one as an internationally recognised Fibre Artist, known for her innovative approach to oversized knitted projects. One of her primary fibres is merino wool, complementing the presentation from AWI that follows her in today's program.

11:00AM RAJESH BAHL

Australian Wool Innovation/The Woolmark Company

Wool Appreciation Course, discover a timing process from farm to fashion whilst discovering some of the latest wool innovations.

The Woolmark Company's Wool Appreciation Course will offer participants insight into the production pipeline of Merino wool apparel – from fibre to garment – and details the unique benefits, performance and fabric attributes of wool and wool products. It answers the questions of what is wool, outlines the benefits and properties of wool and details the uses of wool

1:30PM AMANDA HOGAN

Australian Computing Academy

Amanda Hogan from ACA will provide expert guidance and strategies to effectively implement the new Technology Mandatory syllabus in 2019.
