Differentiation there's an App for that…..

Differentiation is a targeted process that involves forward planning, programming and instruction. It involves the use of teaching, learning and assessment strategies that are fair and flexible, provide an appropriate level of challenge, and engage students in learning in meaningful ways. Differentiated programming recognises an interrelationship between teaching, learning and assessment that informs future teaching and learning.

	Classkick is a free app that students work on and get help instantly from their teacher and peers. Students work on assignments with their Chromebooks, laptops, or iPads, while getting help from teachers and peers instantly. Teachers create assignments, see all their students' work in real-time, and give LOTS of student feedback. Best of all, students can help each other anonymously. URL goo.gl/5wMysZ
	The **Nearpod** platform enables teachers, schools and districts, to use their iPads to manage content on students' iPads, iPhones, iPods or Macs. It seamlessly combines interactive presentation, collaboration, and real-time assessment tools into one integrated solution. URL goo.gl/com1DI
	Educreations is a unique interactive whiteboard and screencasting tool that's simple, powerful, and fun to use. Annotate, animate, and narrate nearly any type of content as you explain any concept. Teachers can create short instructional videos and share them instantly with students, or ask students to show what they know and help friends learn something new. URL goo.gl/UwBsUU
	Explain Everything is an easy-to-use design, screencasting, and interactive whiteboard tool that lets you annotate, animate, narrate, import, and export almost anything to and from almost anywhere. Create slides, draw in any colour, add shapes, add text, pictures and videos, use a laser pointer. Rotate, move and arrange any object added to the stage. Record and playback your screencast. No account is necessary to use Explain Everything and share creations. URL goo.gl/s8aOpW
